

PRODUCT
CATALOG

High quality workmanship, excellent taste and attention to every little detail – these are the basic ingredients of every SPAK product.

The history of the Austrian family business Spak dates back to 1935, when it was founded in Vienna by Fritz Spak, the father and grandfather of the current owner Hans Peter Spak und Peter Spak.

In 1990, a subsidiary was also established in the Czech Republic, followed by a production facility in the Bohemian town of Susice. In 2007 the location in Gallbrunn (near Vienna) was opened. The company employs more than 250 people and is one of the most important regional employers.

SPAK's two production facilities in Austria and the Czech Republic, use the best raw materials with traditional recipes and high-quality technological manufacturing processes. At both sites we manufacture products for our home markets in Austria, the Czech Republic and Slovakia, as well as throughout Europe and beyond.

Hans Peter Spak
